

Index Tuning Possibilities

This list is sorted in the same order in which they appear in their properly explained list. This sorting tries to group similar tunings.

If there are two costs given, divided by a slash, the first cost is the cost of the material, the second one the cost to be paid if an experienced gun smith creates and adds that tuning.

Permanent Tunings:

Name of the Tuning:	Costs
Trigger fine adjustment	100 – 150 \$
Sawn off barrel	200 – 300 \$
Tapering	400 – 500 \$
