Special rule:	None	
Encounterable versions:	Standard model: With mounting rails: With red dot sight: With laser sight: With silencer:	Very common common rare rare common
Description:	A popular export from the Czech Republic, this small, fully automatic pistol is, in some ways, a different answer to the question that lead to the M1 Carbine of the US Armed Forces in World War II: what does one hand a soldier, that needs more than a normal pistol, but not quite a full rifle? The vz 61 Skorpion is a lightweight, comfortably carried weapon with enough firepower for self defence.
